**Aaron Curry - UGLY MESS**, on South Lawn, to - June 19, 2016, [View images from this exhibition](#)  
Los Angeles-based artist Aaron Curry fuses his interests in the sculptures of Modernist artists such as Pablo Picasso, Henry Moore, and Alexander Calder with his personal experiences of 1980's mass media, and skating and graffiti culture. Composed of intersecting planes of aluminum painted with bright colors in a cartoon-like manner, *UGLY MESS* is an abstract, surreal sculpture that operates on the boundaries between Modern and contemporary, painting and sculpture, the geometric and figuration. Organized by Katonah Museum of Art Associate Curator, Elizabeth Rooklidge.

***The Nest, an exhibition of art in nature***. Exhibition runs from March 6 – June 19. The reception will include a tour with the curator and artists at 5pm. The exhibition will be a provocative display incorporating contemporary art, relics from the natural world, and items of material culture, providing an unexpected lens through which to observe the fascinating parallels between human and animal behavior, and raising timely questions about the survival of the birds and their habitats in our increasingly fragile ecological world.

Authentic bird's nests from the Yale Peabody Museum of Natural History collection will be on view alongside works by Sharon Beals, Sanford Biggers, Dove Bradshaw, Björn Braun, John Burtle, Walton Ford, Shiela Hale, Fiona Hall, Porky Hefer, Nina Katchadourian, Louise Lawler, Judy Pfaff, James Prosek, Hunt Slonem, Kiki Smith, Andreas Sterzing, Paul Villinski, and David Wojnarowicz, as well as a selection of Pre-Columbian feathered textiles.

### **A Walk in The Park, Bedford Hills Memorial Park**

On Wednesday evening June 8th the Town of Bedford's environmental consultant, Beth Evans and Chairman of the town's Wetlands Commission Andrew Messinger will be leading a fascinating nature walk around and through Bedford Hills Memorial Park. The park, which is surrounded by wetlands, some unexplored, and high density residential development also contains a graveyard, a sewage treatment plant, an abandoned municipal water well, numerous athletic fields and two swimming pools. Lake Marie, which takes up about one fifth of park is fed by a system of drainage facilities, bio filtering systems and a stream. Haines Road drains into the Lake as does a residential development and the Saw Mill River Parkway. But in spite of all these 'wicked' issues nature thrives in the lake which is the home to 3-foot long carp, several species of frogs, several species of turtles, numerous waterfowl species and rumors of a large South American rodent the size of a cat. All this in a spot that over 200 years ago was a serene cranberry bog.

Learn about the issues and learn about the environmental successes at this park. Find out how wicked problems often have wicked solutions. Learn what you can do to help as we move forward. We'll walk, talk and explore as we watch Mother Nature and man try to co-exist.

Sign up is limited to 20 people. Pre-registration is required by email at [Recreation@Bedfordny.gov](mailto:Recreation@Bedfordny.gov). There is no fee and feel free to bring a snack. We'll meet at 6 pm at the covered pavilion just behind the swimming pool.

Rain date is Thursday, June 9th.

About the walk leaders: Beth Evans has been Bedford's environmental consultant for several decades and works closely with the town Wetlands Commission. Beth is the principal of Evans Environmental Consultants and she is currently the president of the Connecticut Society of Wetland Scientists. Andrew Messinger has been on the town's Wetlands Commission for more than fifteen years and its chairman for the past 7. He is a Cornell University certified master naturalist and a New York State DEC steward.
